### ALL INDICTED.

Pembroke Negroes Charged With Murder and Conspiracy.

Trial of the Accused Set for Today and Will Probably Consume Two Weeks.

The special grand jury impaneled for the purpose of investigating the murder of the unknown white man near Pembroke, returned an indictment Wednesday morning against all nine of the negroes in jail charged with the crime. The indictment charges them with willful murder committed in manner and form as follows:

That said George Holland, Ed Holland, Frank Meriwether, Frank Massie, Frank Sherman, Ed Moseley, William Garrott, Charles Finch and Dick Carney did in this county and state, aforesaid, on the 20th day of November, 1903, and before the finding of this indictment unlawfully, willfully, maliciously and with malice aforethought, kill, slay and murder a white man, to this grand jury unknown, and in pursuance of said conspiracy the said Frank Meriwether, George Holland and Frank Sherman did then and there unlawfully, willfully, feloniously and with malice aforethought kill and murder the said unknown white man in the following manner:

That the said Frank Meriwether struck, beat and wounded him, with an ax handle bludgeon or other deadly weapon; that the said George Holland and Frank Sherman cut, stabbed and wounded him with knives or other sharp instruments or weapons, from which said striking, beating, cutting, and wounding he, the said unknown white man, did then and there presently die. That Dick Carney, Frank Massie, William Garrott, Chas. Finch, Ed Moseley and Ed Holland were then and there personally present and did then and there unlawfully, willfully and feloniously and with malice aforethought, aid, assist, abet, counsel, advise and encourage the said Meriwether, George Holland and Sherman to kill and murder the said unknown white man as aforesaid and which said killing was done in pursuance of the conspiracy aforesaid. That the said unknown white man, was killed and murdered as aforesaid.

Shortly after the bill was returned the prisoners were brought into court. The Commonwealth's Attorney asked that time be given in order to summon other witnesses in the case and the trial was set for this morning at 10 o'clock.

R. N. Lander, col., who represents seven of the men, stated that he thought he would be ready at the time fixed for entering the trial. Mr. John Feland, representing two of the prisoners, Charles Finch and Ed Moseley, announced ready, but asked a separate trial for his clients. This was granted and the two men will not be tried with the other seven. If Attorney Lander's clients ask for separate trials the case will necessarily be long drawn out. More than twenty witnesses were examined by the grand jury and there will probably be about fifty in all.

The thirty men summoned as petit jurors were on hand when court opened and were dismissed until this morning, with the instruction to consider themselves impaneled. Judges C. H. Bush and Jas. Breathitt will assist in the prosecution.

### ICE HARVEST.

Many houses Filled by Farmers This Week.

The ice spell this week has been a good one and many farmers over the county succeeded in filling their ice houses. The ice gathered was from three to four inches in thickness and was clear and firm. A few houses had been partially filled a month ago.

### MANY BILLS

Are Already Being Introduced In Both Houses.

Legislature Is Getting Down To Business—Caucus Nominees Elected.

Frankfort, Ky., Jan. 7.—With Lieut. Gov. Thorne swaying the gavel in the Senate and the Hon. Eli H. Brown, Jr., performing a similar service of honor in the House, the General Assembly was formally convened at noon Tuesday in a session that promises to be one of much business. In the caucuses there were few contests. Eli H. Brown won for speaker of the House by a vote of 42 to 33 for his opponents, Newcomb and Barton. Jas. E. Stone was nominated for clerk. In the Senate Senator Allen was elected President Protem and Senator Campbell Cantrill chairman of the caucus. Henry Lawrence was made chairman of the House caucus. William Cromwell is Senate Clerk.

The Governor's message was sent in and read.

The principal suggestions for legislation, as embodied in the governor's message, are these:

That the charitable institutions of the state are in need of smaller appropriations than for some years past.

That while there is in the state treasury more money than has ever before been in the treasury, yet prudence and economy are advised.

That the schools of reform be placed under a different system of operation, the governor's idea possibly being that they should be placed under the management of the state board of commissioners or some such body.

That the crowded condition of the insane asylums makes necessary an appropriation for an addition to one of the present asylums. This would be less expensive than the building of another asylum.

That the Democratic platform demand for uniform school books and for a maximum price to be fixed by statute should be put into execution in the form of a uniform school book law. The governor thinks that such a measure should and will pass at this session and that it is the most popular measure now before the people.

He suggests that the county pay half of the \$75 per capita now paid by the state for pauper idiots, believing that this would prevent carelessness on the part of county officials and would save \$150,000 to \$200,000 a year.

He urges that a sufficient amount of money should be appropriated for the erection of capitol buildings commensurate with the dignity of the state. He regards the location of the capitol as settled and believes that this is the proper time for the passage of a capitol appropriation bill.

He urges a proper appropriation to carry out the plan of the Kentucky Exhibit association for the proper representation of Kentucky at the World's fair in St. Louis.

### Bills Introduced.

Senate bill No. 1 was by Senator Farria, providing for registration in all cities to the fifth class, with certificates of registration. Other Senate bills provide for a return to the viva voce system of voting, for a uniform system of school books, for \$1,000,000 capital appropriation, for a \$65,000 world's fair appropriation and for electrocution to succeed hanging in inflicting the death penalty.

Senator Boales has also introduced a suffrage bill, providing for a "grandfather clause," which means that illiterate voters whose ancestors were not voters prior to 1867 would be disfranchised.

### ROW IN CAUCUS.

School Book Bill Causes Hot Discussion.

nate a state librarian turned out to be a stormy meeting. A resolution to nominate the Prison Commissioner and to make the school book bill a caucus measure brought on a hot fight and Senator Cantrill refused to put the motion and declared he would quit the chair before he would be a party to what he called "a trick." A resolution by Senator Allen to proceed to the nomination of a librarian was voted down 71 to 26. Senator Cantrill then adjourned the caucus. Senator Hickman was at once elected temporary chairman and 89 participated in the caucus that put through the program.

Miss Pauline Helm Hardin, librarian, and Geo. V. Green, prison commissioner, were re-nominated without opposition.

The rules were amended providing that a majority of the joint caucus may at any time call a caucus on the school book question. This insures the bill's passage, as the fight against it would have been made in the Senate only.

### STORE BURNED.

Judge Bingham has appointed Capt. John C. Dabney County Attorney in Trigg, to fill out the unexpired term of Mr. Denny P. Smith, who was recently elected Commonwealth's attorney in this judicial district.

### BANK OF CROFTON

Opens Its Doors For Business With Flattering Prospects.

The Bank of Crofton opened its doors for business Wednesday. The new banking concern is capitalized at \$15,000 and begins business with flattering prospects. Mr. A. B. Croft is president and Mr. O. A. West vice-president. Among the stockholders are several Hopkinsville business men.

### Sues for \$5,000.

P. Bohn has sued J. Hummelstein for \$5,000 damages. The parties had been in business together for several months under the firm name of Hummelstein & Co. Plaintiff alleges that defendant uttered false and slanderous statements about him.

### RAY AND LEAVELL

Both Removed From Hopkinsville Asylum Places.

Dr. Milton Board Superintendent and Eli Berry, of Owensboro Steward.

Frankfort, Ky., Jan. 7.—Gov. Beckham has sent to the State Senate his appointments at the insane asylums for the coming four years for confirmation. He has decided upon the following:

Central Asylum, at Lakeland—Dr. J. G. Furnish, Superintendent; Judge Matt O'Doherty, Mr. Will H. Newman and Mr. Chas. P. Dehler, all of Louisville, as Commissioners to succeed John Barrett and Dr. T. P. Satterwhite, whose terms have expired, and Chas. F. Taylor, resigned.

Eastern Asylum, at Lexington—Dr. J. S. Redwine, Superintendent, to succeed himself.

Western Asylum, at Hopkinsville—Dr. Milton Board, of Breckinridge county, Superintendent, to succeed Dr. W. W. Ray; Eli Berry, of Owensboro, Steward, to succeed Buckner Leavell, of Hopkinsville.

State Feeble-minded Institute, at Frankfort—Dr. James W. Hill, of Nelson county, Superintendent, to succeed Dr. C. C. Owens, of Maysville; Ab. G. Rhea, of Russellville, Steward, to succeed J. Morgan Chinn, resigned.

Dr. Hill has for four years past been first assistant physician at Lakeland Asylum. It is probable that Dr. C. C. Owens, the retiring official at the institution here, will succeed Dr. Hill at Lakeland.

The list of appointments sent to the Senate also contains the names of the present First Physician, W. A. Lackey; Second Assistant J. W. Stephens and Third Assistant Dr. Florence Meder at the Hopkinsville Asylum, and Dr. Lewis Mulligan, First Assistant, and Dr. A. A. Bailey, Second Assistant, at the Lexington Asylum.

On Heating Stoves

I am stuck on Heating Stoves and want to get my money out of them to put in spring and summer goods. We all make mistakes and it is evident that I either bought too many stoves or did not have enough customers to sell them to; and I am getting rid of them if I have to sell them below cost. If you are in need of a stove, it will pay you to see me. If you don't need one you are not the man I want to see.

Barlow and Wilson's minstrels always meet with a royal reception when they visit Hopkinsville. Their orchestra is first-class and their singing the best. It is fun and enjoyment from start to finish, nothing drags, and the audience is always highly pleased with their efforts.

The Salt Lake Daily Deseret News has the following to say concerning their recent appearance in that city:

"Conroy and Murry are the hottest dancers in the country. They are with Barlow and Wilson's Minstrels.

"Barlow and Wilson's Minstrels, which appeared here last night, opens a new era in minstrelsy. The performance was devoid of boisterousness, and the usual rough and uncouth language, which is common with some of the so claimed first-class companies; yet the vivid portrayal of the unique attributes and the violent humor of the genuine darkey, was charming in the extreme. The vocal numbers were all given in a manner that took while the audience from the start, while the orchestra was all that was claimed for it. Barlow and Wilson's Minstrels always find a cordial welcome awaiting them here."

This grand aggregation of min-

strelsy will hold the boards at the opera house to night. Seats on sale at Postal Telegraph Office.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. ## An Ancient Foe

To health and happiness is Scrofula as ugly as ever since time immemorial. It causes blemishes in the neck, disfigures the skin, inflames the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease and the capacity for recovery, and develops into consumption.

"A bunch appeared on the left side of my neck. It became great pain, was lanced, and became a running sore. I went into general decline. I was persuaded to try Hood's Sarsaparilla, and when I had taken six bottles my neck was healed, and I have never had any trouble of the kind since." Mrs. K. T. Stryker, Troy, Ohio.

## Hood's Sarsaparilla and Pills

will rid you of it, and finally and permanently, as they have rid thousands.

One horror follows another in quick succession. A head-end collision on the Rock Island road near Topeka, Kansas, Wednesday morning, brought sudden death to 17 persons, and 37 others were more or less injured. The accident was due to the carelessness of the passenger engineer, who mistook a freight train on a side track for one he had been instructed to pass at Willard, that had not arrived.

The number of deaths from the Chicago theater fire was finally found to be 590. Many suits are being brought for damages by relatives of the victims. Gross negligence will be shown on the part of the property owners.

W. H. Cullton, star witness in the Goebel cases, has failed to appear at this term of the Franklin court and Judge Cantrell has notified his bondsmen that his bond of \$10,000 will be forfeited if Cullton is not brought back from his retreat in the far west before the present term of court is ended.

Martin of Washington contributes a startling expose of gigantic frauds by which the nation is now being robbed of its public lands, to the extent of hundreds of millions of dollars. Martin urges the repeal of the three land laws that make these frauds not only possible but easy.

## The Spirit of Winter.

The spirit of winter is with us, making its presence known in many different ways—sometimes by cheery sunshine and glistening snows, and sometimes by driving winds and blinding storms. To many people it seems to take a delight in making bad things worse, for rheumatism twists harder, twinges sharper, catarrh becomes more annoying, and the many symptoms of scrofula are developed and aggravated. There is not much poetry in this, but there is truth, and it is a wonder that people don't get rid of those ailments. The medicine that cures them—Hood's Sarsaparilla—is easy obtained and there is abundant proof that its cures are radical and permanent.

## A VENERABLE PASTOR CURED BY PE-RU-NA.

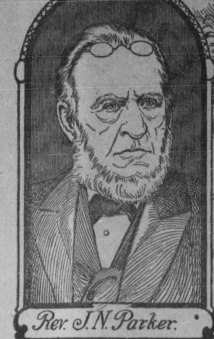

Pe-ru-na is a Catarrhal Tonic Especially Adapted to the Declining Powers of Old Age.

In old age the mucous membranes become thickened and partly lose their function.

This leads to partial loss of hearing, smell and taste, as well as digestive disturbances.

Perma corrects all this by its specific operation on all the mucous membranes of the body.

One bottle will convince anyone. Once used, and Perma becomes a life-long stand-by with old and young.

Strong and Vigorous at the Age of Eighty-eight.

Rev. J. N. Parker, Union, N. Y., writes: "In June, 1901, I lost my sense of hearing entirely. My hearing had been somewhat impaired for several years, but not so much affected but that I could hold converse with my friends; but in June, 1901, my sense of hearing left me so that I could hear no sound whatever. I was also troubled with rheumatic pains in my limbs. I commenced taking Perma and now my hearing is restored as good as it was prior to June, 1901. My rheumatic pains are all gone. I cannot speak too highly of Perma, and now

when 88 years old can say it has invigorated my whole system. I cannot but think, dear Doctor, that you must feel very thankful to the all-loving Father that you have been permitted to live, and by your skill be such a blessing as you have been to suffering humanity."—Rev. J. N. Parker.

## A Bishop's Letter.

T. H. Lomax, D. D., Bishop 2nd Dist. A. M. E., of Charlotte, N. C., writes: "I recommend your Perma to all who want a strengthening tonic and a very effective remedy for all catarrhal complaints."—T. H. Lomax.  
If you do not derive prompt and satisfactory results from the use of Perma, write at once to Dr. Hartman, giving full statement of your case, and he will be pleased to give you his valuable advice gratis.

Marsh Predicts Tempestuous Times, With Severe Cold Weather.

Marsh, the Winter Haven, Ohio, weather prophet, figures out January weather as follows:

The month of January will be a tempestuous one, with severe cold weather, blizzards and heavy snow storms covering the greater portion of the country. The precipitation during the month will consist principally of heavy snow, not much rainfall, except over the Southern and Gulf States.

Between 1st and 7th cold wave, cold weather covering the entire country, with much snow. Between 8th and 13th another cold wave, preceded by snowstorms, mercury will drop to zero in Southern States and from twenty to thirty below north of the Ohio river. Between 14th and 21st changeable temperature will prevail over the entire country, from mild to severe cold waves. Heavy rain will fall generally in Florida, with severe storms and cyclonic winds along the Florida coast, followed by cold wave.

Between 22nd and 24th cloudy, unsettled weather will prevail generally.

Between 24th and 29th the East will be storm swept. Heavy snow fall over Kentucky, Tennessee and other adjoining States.

The month will end with generally fair and cold weather over the whole country.

**THE RISKS THEY TAKE.**

Men Who Work on the Big Sky-scraper Buildings.

It frequently happens that when you pass a new skyscraper that is going up, says the Philadelphia Ledger, you see a number of working men astride an iron girder, being lifted by a derrick to the eighth, the tenth or even the fifteenth story of the building. High up in the air there are men driving rivets, and at the same time, balancing themselves on a footing two inches wide; men, hundreds of feet above the street, holding on to supports with one hand, push, pull and drag the heavy iron beams into their places. It looks as if working men's children should be taught tight rope walking and acrobatic turns if they are to follow the profession of their fathers. A contractor said, regarding the great danger to the workmen in putting up modern buildings, that two or three years ago it was a difficult matter to obtain men who were willing to run the risk involved. "But now," he continued, "so many men have become expert in balancing themselves and taking with ease the dangerous positions required in the work that we can get all we need. Some of them pride themselves on their expertness in their accomplishment, and I know several Irishmen who would even offer to work on a three-story house. You would be surprised at the affection the makers of tall buildings have for the structures when they are finished. Their part in the putting up of edifices so gigantic and so imposing gives them a sort of proprietary interest in the places all their lives. I helped to build that office building," they say to their friends when they pass it. I put all the rivets in the girders on the tenth story." Sometimes the men ask permission to bring their wives and children on a Sunday to take them through the building before it is occupied, so that they can show them what part they have worked on. The family is always pleased and full of admiration for their father's skill!"

**DEADLY CELLULOSE COMB.**

Manufactured from Slight Modification of Gun Cotton.

Attention to the dangers attending the use of the celluloid toilet articles is again called by a contributor to the Medical Press and Circular. He writes as follows:

"It has long been known that dressing combs and other articles of like nature have been manufactured from a modification of gun cotton. From time to time we have pointed out the possibility of accident from the use of an article containing such an ingredient, but comparatively few cases of accident have hitherto been recorded. Now it appears that the original patent has expired, a vast number of imitation processes have sprung up and the public are flooded with combs made from gun cotton compounds by methods which render them more dangerous than those prepared under the original patent. That some restriction should be placed on its indiscriminate use was proved by the recent case of a girl, 22 years of age, who was suffering from cellulitis of the scalp, accompanied by a marked degree of nervous shock. It appeared that her head had been set on fire by the sudden combustion of a comb which she wore in her hair. Cooking her father's dinner one Sunday, she happened to bend down before the fire, when the comb suddenly ignited, and she became enveloped in flames. Her life was only spared through the presence of a kind of hero, who immediately enveloped her in a blanket, and so extinguished the conflagration. Obviously, seeing that the mere storage of gun cotton is restricted by heavy penalties, it is not fair or safe that makers should be permitted to place a slightly modified but actively dangerous modification on the market, to be used by a section of the public who have not the slightest notion of its composition and dangers."
